LUCKY PAULO

Aspiring Computer Engineer | Junior Web Developer

Email: otaruomoh@gmail.com | GitHub: github.com/Otaruomoh-spec | Nigeria

PROFESSIONAL PROFILE

Motivated secondary school graduate developing practical skills in computer engineering and web development. Interested in building useful digital products and learning how software systems work from the front end to the back end. Has worked on personal projects using HTML, CSS, JavaScript, Node.js and Express, and is keen to grow through further learning, collaboration and entry-level opportunities.

TECHNICAL SKILLS

Web: HTML, CSS, JavaScript

Backend: Node.js, Express

Tools: Linux, Termux

Other: Problem-solving, debugging, responsive design

SELECTED PROJECTS

SkillBridge Connect — Freelance Marketplace

Personal project concept for a marketplace where clients can post projects and freelancers can submit proposals. Includes role-based user flows, project listings, applications and messaging. Technologies: Node.js, Express, EJS, JavaScript, CSS.

Nudge CRM — Lead Follow-up App

Personal project focused on helping professionals organize leads and follow-up tasks. Includes account flows, lead management and follow-up status tracking. Technologies: Node.js, Express, JavaScript, HTML, CSS.

ENGINEER.OS — Personal Portfolio

Responsive portfolio website presenting engineering interests, skills and selected projects, with animated interface elements and contact links. Technologies: HTML, CSS, JavaScript.
